I once booked her as a solo act for Merle Haggard in Sacramento in front of a roomful of 900 Central Valley Cowboys ... solo (although Merle's guitar player could not resist joining her)... and she had them singing along on the second song."

"I had the extreme pleasure of viewing a very fine band fronted by the talented Ginny Mitchell....her album is a fine recording indeed, featuring back-up work from Bela Fleck, Jerry Douglas and Mark O'Conner. As good as these musicians are, the feature of this record that really stands out is Ginny's vocals and the great melodies on these tunes. I highly recommend it.... and if you see the name Ginny Mitchell get on down and see her live."
